

### REMARKS

Applicant wishes to thank the Examiner, Ms. Dalena Tran, and the Supervisory Examiner, Mr. Thomas Black, for the courtesies extended to Applicant's counsel, Mr. Garrett Donley, during the telephone interview of February 8, 2006. During that interview, Applicant's counsel highlighted the clarifications made to the claimed subject matter through the proposed amended claims and the distinctions between the present invention and the cited references, including:

1. the meaning of the term "profile" as being based on the operational location of the vehicle;
2. the ability of the profiles to control multiple sensors located upon the vehicle all at once; and
3. the ability of the profiles to be set, changed and created by the vehicle operator while the vehicle travels among various operating locations.

Should the Examiner have any questions or wish to discuss any aspects of these distinctions further, she is invited to contact Applicant's attorney directly by telephone at 248-641-1239, so that any further issues can be resolved by telephone.

Respectfully submitted,

Date: February 20, 2006

  
Garrett C. Donley, Reg. No. 34,579
